SUBJECT INDEX, VOLUME 14

Active polycondensation of methylene tartarate with hexamethylenediamine, 409
Adsorption of water onto polypropylene fibers, 689
Anionic hydrogen-transfer polymerization of acrylamide, initiation mechanism of, 299
Aromatic polyradical anions and their monomers, decomposition of, 73
Avrami exponent, determination of, 543
Band resolution study of the Raman spectrum of highly syndiotactic poly(vinyl chloride) in the carbon-chlorine stretching region, 329
Block and graft copolymers by selective cationic initiation, 489
Carbon-13 spin-lattice relaxation times of isotactic and syndiotactic poly(methyl methacrylate), 641
Carbon-to-carbon unsaturation, quantitative determination in furan-maleic anhydride copolymers, 273
Catalytic hydrolysis of p-nitrophenyl acetate by agarose-coupled glutathione, 361
Cationic radicals, trapped, 517
Cationic starch graft-polychloroprene latexes, 215
Ceiling temperatures in radical polymerizations of N-phenyl and N-n-butyl methacrylamide, 283
Cellulose, mechanical relaxation of, 741
Cellulose I-cellulose II conversion, induced by ethylenediamine, 747
Cellulose II, neutron diffraction studies of unit cells, 561
^{13}C-NMR spectroscopy, 549
^{13}C-NMR spectrum of poly(3-methylbutene-1), 335
^{13}C-NMR studies of furan-maleic anhydride copolymers, 273
of poly(4-vinyltriazole), 389
^{13}C Nuclear magnetic resonance spectra of crosslinked butyl rubbers, 253
Crosslinking of lyotropic liquid crystals in magnetic fields, 757
Cryptates, used in anionic polymerization of styrene, 201
Crystalline linear polyethylene produced by rapid cooling from the melt, 619
Crystalline poly(β-pinene), 147
Cyclopolymerization of α,ω-bis(4-vinylphenyl)alkane, 85
Cyclopolymers of cyclopentadiene and maleic anhydride, 679
Degradation of polymers, correlation between heats of depolymerization and activation energies in, 761
1,3-Diene polymerization, stereochemical control of, 317
Diffusion coefficients of antioxidants in polyethylene, determination by gas chromatography, 257
Donor-acceptor interactions in polymeric systems, 653
Dye ions in polymer films, migration and drift mobility of, 91
Epoxy polymer-polyamide interaction, 179
ESR study of copolymerization of unsaturated polyester with styrene, 79
Ferrocene-containing polymers, preparation and photochemical reactivity, 143
Fibrillar polyethylene crystals, mechanical properties of, 339
Fluoroalkyl methacrylates, ultraviolet and γ-ray polymerization of, 609
Free-radical polymerization, dependence of termination rate constant on monomer size in, 671
of styrene in the presence of aryl benzene thiosulfonates, 97
Friedel-Crafts catalysts, as initiators of cationic polymerization, 517
Furan-maleic anhydride copolymers, structure of, 273
Gel formation following radiation grafting of acrylonitrile to polyethylene, 723
Gel-permeation chromatography of low molecular weight polymers, 683
use in determination of preferential solvation of polymers in mixed solvents, 323
use in molecular weight characterization of natural Guayule rubber, 649
Graphitic-type polymer, electrical resistivity of, 151

Helix-coil transitions in poly-D-glutamate esters with aromatic side chains, 219
High-conversion copolymerization data, analysis with application of Kelen-Tüdös method, 513
^{1}H-NMR study of sequence distribution of chloroprene and methyl methacrylate copolymers, 595
Hydrogen atoms and formyl radicals formed in photoirradiated cellulose, 225
Inclusion polyamides, novel synthesis, 459
Interaction energies among aromatic side chains of poly-D-glutamate esters, 303
Isocyanate-terminated intermediates, block polymers from, 603
Kelen-Tüdös method applied to analysis of high-conversion copolymerization data, 513
Light scattering of copolymers of 2-vinylpyridine and N-vinylpyrrolidone, 23
Longitudinal acoustic mode in isotactic polypropylene, 195
Lyotropic liquid crystals, crosslinked in magnetic fields, 757
Methyl methacrylate polymerization in the presence of iodine, 499
Model organic halides, reactions with silver and other salts, 139
Molecular weight characterization of natural Guayule rubber by gel-permeation chromatography, 649
Monomer and configurational sequence regularity in vinyl chloride-sulfur dioxide copolymer, 263
Neighboring group participation in the macroester ⇌ macroion equilibrium in the cationic polymerization of tetrahydrofuran, 125
Neutron diffraction studies of the unit cell of cellulose II, 561
Neutron small-angle scattering by copolymer solutions, 585
Norbornene, peroxide-induced polymerization of, 555
Nylon 6,6 analogs, synthesis and luminescence properties of, 167
Oligomers of methyl vinyl ether, syntheses and tacticities, 395
Oriented crystallization of ammonium sulfate in poly(vinyl alcohol) fiber, 623
Peak-eliminated Fourier-transform NMR, 531
Pesticides, starch-encapsulated for slow release, 417
α-Phenylmaleimido group as a new photocrosslinkable unit, 207
Phosphonitrile-sugar copolymer hydrolyzable by alkaline phosphatase, 237
N-Phosphonium salts of pyridines, studies on reactions of, 55
Photocrosslinking of poly(2-phenylbutadiene) through charge-transfer interaction, 211
Photopolymerization of vinyl monomers using Cu(II)-amino acid chelates, 455
Polyacrylamide-Cu^{++} chelate and iodine, a new semiconductor, 407
Polyamine oligomers obtained from Mannich polymerization, 103
Poly(diallyldimethylammonium) chloride, structure by ^{13}C-NMR spectroscopy, 549
Polyelectrolytes from reaction of β-lactam-N-sulfonylchloride groups with aqueous ammonia, 5
Polyester prepared from acrylic acid in the presence of crown ether, 277
Polyethers, modification by transition metal chlorides, 577
Polyethylene surfaces, chemical modification in a nitrogen corona, 231
Poly(ethylene oxide-b-methyl methacrylate), synthesis of, 675
Poly-D-glutamate esters with aromatic side chains, conformations of side chain, 351
  helix-coil transitions in, 219
  interaction energy among aromatic side chains, 303
Polyglutamates, fluorescence and energy transfer of, 521
Poly(lactic acid), 729
Polymeric 3-carbamoylpyridinium, enhanced reactivity and affinity toward cyanide ion, 1
Polymerization, by ferric acetylacetonate, mechanism of initiation, 19
  of benzene by aluminum chloride, 347
  of ethylene carbonate, 161
  of racemic dilactide, stereosequence distribution in, 729
  of vinyl chloride at subsaturation pressure, 735
Polymer modification and synthesis using sulfenyl derivatives, 661
Polymers with crystalline inhomogeneities, destruction of, 365

Polymethacrylate, tacticity measurement by peak-eliminated Fourier-transform NMR, 531
Poly(methyl methacrylate), carbon-13 spin-lattice relaxation times of, 641
Polynorbornenes, vinyl-type, 613
Polyolefins, pyrolyses of, 713
Polyperfluorobutadiene, NMR studies on microstructure of, 717
Polypropylene filaments, isotactic, surface structurization by quenching in liquids, 29
Polystyrene-methylcyclohexane solution, interfacial tension of, 705
Polytetrahydrofuran, grafting from polymeric triflate esters, 135
Poly(tetramethylene terephthalate), reversible crystal deformation and conformational changes in, 41
Poly(vinyl acetate)-iodine color reaction, sequence length required, 467
Poly(vinyl alcohol) fiber, oriented crystallization of ammonium sulfate in, 623
Poly(vinyl chloride), observation of ductile fracture in, 751
Poly(p-vinyltrifluoroacetophenone) prepared by radical initiation, 375
Preferential solvation of polymers in mixed solvents, determination by gel-permeation chromatography, 323
Proton spin-lattice relaxation times of polymers of various tacticities in solution, 51
Pyrolyses, oxygen-induced, 713
Radiation grafting of acrylonitrile to polyethylene, 723
Radiation-induced grafting of vinylpyridines to cellulose, effect of solvent on, 35
γ-Radiation-induced grafting of methyl methacrylate to polypropylene, effects of water and mineral acid on, 287
Rate-enhancing effects of polyelectrolytes on interionic reactions, 667
Rigid rod-like molecular shape, 47
Scattering halos, 293
Selenium-containing polymers, synthesis of, 413
Self-crosslinkable polymers, 503
Sequence distribution of chloroprene and methyl methacrylate copolymers, studied by ^{1}H-NMR, 595
Sequential analysis by cooperative reactions on copolymers, 645
Singlet oxygen ($^1\Delta_g$) on model compounds for polyolefins and cellulose, 493
Small-angle light-scattering studies, 381
Solvent alcohol, role in photosensitized copolymerization of styrene to cellulose, 537
Spin-lattice relaxation in nylon 66 and poly(oxymethylene), 189
Spin-lattice relaxation times of crosslinked butyl rubbers, 253
Stable aryloxy radicals, alternative route to, 463
Starch graft copolymers, rapid analysis of, 693
Stress-induced crystallization of cis-1,4-polybutadiene, 107
Styrene-butadiene-urea thermoplastic elastomers, 603
Termination rate constant, dependence on monomer size in free-radical polymerization, 671
1,3,6,8-Tetrahalogenovinylcarbazoles, synthesis of, 153
Tetrameric iodonium ion, synthesis of, 65
Thermal depolymerization of poly-2,5-distyrylpyrazine in solution, 47
Thermal equilibrium of poly(carboxylic acids) complexes realized by cooperative hydrogen bonding, 129
Tie-chains, existence in the crystallization of polymer melts, 449
Transcendental equations, 11
Transformation reactions in polymerization systems, 471, 477, 483
X-Ray diffraction of polytetrahydrofuran, line-broadness in, 591
Ziegler-Natta catalysts, 613

Polymer Letters Edition

JOURNAL OF POLYMER SCIENCE

Volume 14, 1976

Board of Editors: **H. Mark • C. G. Overberger • T. G Fox**
Advisory Editors: **J. J. Hermans • H. W. Melville • G. Smets**
Editors: **C. G. Overberger • T. G Fox**
Associate Editors: **E. Pearce • E. F. Casassa • H. Markovitz**

an Interscience® Publication
published by JOHN WILEY & SONS

Copyright © 1976 by John Wiley & Sons

Statement of ownership, management, and circulation (Act of August 12, 1970: Section 3685, Title 39 United States Code)

1. Title of Publication: JOURNAL OF POLYMER SCIENCE
2. Date of filing: September 29, 1976
3. Frequency of issue: Monthly, in 3 sections (Polymer Chemistry, Physics and Letters)
   A. No. of issues published annually: 36
   B. Annual subscription price: $425.00
4. Location of known office of publication: John Wiley & Sons, Inc., 605 Third Avenue, New York, New York 10016
5. Location of headquarters of general business offices of publishers: John Wiley & Sons, Inc., 605 Third Avenue, New York, New York 10016
6. Name and complete addresses of publisher, editor, and managing editor:
   Publisher: John Wiley & Sons, Inc., 605 Third Avenue, New York, N.Y. 10016
   Editors: H. Mark, Polytechnic Institute of New York, 333 Jay Street, Brooklyn, N.Y. 11201, C. G. Overberger, Dept. of Chemistry, University of Michigan, Ann Arbor, Mich. 48104, and T. G Fox, Carnegie-Mellon University, Pittsburgh, Pa. 15213
   Managing Editor: None
7. Owner: John Wiley & Sons, Inc., 605 Third Avenue, New York, New York 10016

The following is a list of stockholders owning or holding 1 percent or more of John Wiley & Sons, Inc. stock as of September 29, 1976: Cynthia W. Darby, Box 651, Bridgehampton, New York 11932; Hamilton Darby, Box 651, Bridgehampton, New York 11932; Edward P. Hamilton, 605 Third Avenue, New York, New York 10016; W. Bradford Wiley & Francis Lobdell, Trustees, Elizabeth W. Hamilton Trust, 605 Third Avenue, New York, New York 10016; Edward P. Hamilton, Trustee under will of Elizabeth Wiley Hamilton, c/o Gifford, Woody, Carter & Hays, 1 Wall Street, New York, New York 10005; Eric S. Proskauer & Charles H. Lieb, Trustees, u/a by Jenny R. Proskauer, 220 Central Park South, New York, New York 10019; Francis Lobdell & W. Bradford Wiley, Trustees, f/b/o Deborah Elizabeth Wiley, c/o John Wiley & Sons, Inc., 605 Third Avenue, New York, New York 10016; Cynthia W. Darby & Julia Gilbert, Trustees, under will of Kate R. Q. Wiley, c/o Gifford, Woody, Carter & Hays, 1 Wall Street, New York, New York 10005; Francis Lobdell & W. Bradford Wiley, Trustees, f/b/o Peter Booth Wiley, c/o John Wiley & Sons, Inc., 605 Third Avenue, New York, New York 10016; Francis Lobdell & W. Bradford Wiley, Trustees f/b/o William Bradford Wiley II, c/o John Wiley & Sons, Inc., 605 Third Avenue, New York, New York 10016; Edward P. Hamilton & Cynthia Wiley Darby, Trustees, under will of William O. Wiley, c/o Gifford, Woody, Carter & Hays, 1 Wall Street, New York, New York 10005; Adele E. Windheim, 8 Dundee Road, Larchmont, New York; Mrs. Rosamond R. Pennywitt, 49 Bristol Place, Bay Head, New Jersey 08742; Drexel Burnham & Co., 60 Broad Street, New York, New York; Bankers Trust Company, 16 Wall Street, New York, New York 10005; National Bank of Detroit, Woodward Avenue, Detroit, Michigan; Riggs National Bank of Washington, D.C., 1508 H Street, N.W., Washington, D.C.; Manufacturers Hanover Trust Company, 350 Park Avenue, New York, New York 10022; Bank of New York, P.O. Box 11 203, New York, New York 10249; Morgan Guaranty Trust Company, 23 Wall Street, New York, New York 10005; Bradford Trust Company, 95 Wall Street, New York, New York 10005; National Commercial Bank & Trust Co., 60 State Street, Albany, New York 12207; Wells Fargo Bank, San Francisco, California 94144; Midland National Bank, 401 Second Avenue South, Minneapolis, Minnesota 55480; W. Bradford Wiley, 605 Third Avenue, New York, New York 10016.

8. Known bondholders, mortgagees, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages, or other securities: None
9. Not applicable.

10. Extent and nature of circulation	Average no. copies each issue during preceding 12 months	Actual no. copies of single issue published nearest to filing date
A. Total no. copies printed (*net press run*)	2800	2800
B. Paid circulation		
1. Sales through dealers and carriers, street vendors and counter sales	—	—
2. Mail subscriptions	2212	2212
C. Total paid circulation (*Sum of 10B1 and 10B2*)	2212	2212
D. Free distribution by mail, carrier or other means Samples, complimentary, and other free copies	145	145
E. Total distribution (*Sum of C and D*)	2357	2357
F. Copies not distributed		
1. Office use, left over, unaccounted, spoiled after printing	443	443
2. Returns from news agents	—	—
G. Total (*Sum of E, F1 and 2—should equal net press run shown in A*)	2800	2800

11. I certify that the statements made by me above are correct and complete. (Signature and title of editor, publisher, business manager, or owner) ALLAN WITTMAN, PUBLISHER

12. For completion by publishers mailing at the regular rates (*Section 132.121, Postal Service Manual*) 39 U.S. C. 3626 provides in pertinent part: "No person who would have been entitled to mail matter under former section 4359 of this title shall mail such matter at the rates provided under this subsection unless he files annually with the Postal Service a written request for permission to mail matter at such rates." In accordance with the provisions of this statute, I hereby request permission to mail the publication named in Item 1 at the phased postage rates presently authorized by 39 U.S.C. 3626. (Signature and title of editor, publisher, business manager, or owner) ALLAN WITTMAN, PUBLISHER

Journal of Polymer Science: Polymer Letters Edition

CONTENTS

Vol. 14, Issue Nos. 1–12

ISSUE NO. 1, JANUARY

S. SHINKA, K. TAMAKI, and T. KUNITAKE: Enhanced Reactivity and Affinity of Polymeric 3-Carbamoylpyridinium toward Cyanide Ion 1

P. M. VAN DER VELDEN, M. H. V. MULDER, L. VAN DER DOES, and C. A. SMOLDERS: Polyelectrolytes Obtained by Reaction of β-Lactam-*N*-Sulfonylchloride Groups with Aqueous Ammonia 5

A. M. MEFFROY-BIGET: On Transcendental Equations Generalizing the Relations between the Viscosity of Polymers and their Concentration 11

R. PRABHA and U. S. NANDI: Mechanism of Initiation of Polymerization by Ferric Acetylacetonate 19

Y. IIDA, S. YANO, K. AOKI, and H. OHNUMA: Light Scattering of Copolymers of 2-Vinylpyridine and *N*-Vinylpyrrolidone in Several Solvents 23

P. SMITH and A. J. PENNINGS: Surface Structurization of Isotactic Polypropylene Filaments by Quenching in Liquids 29

J. L. GARNETT and E. C. MARTIN: Effect of Solvent on the Radiation-Induced Grafting of Vinylpyridines to Cellulose 35

R. JAKEWAYS, T. SMITH, I. M. WARD, and M. A. WILDING: Reversible Crystal Deformation and Conformational Changes in Poly(tetramethylene Terephthalate) 41

M. HASEGAWA, H. NAKANISHI, and T. YURUGI: A Novel Type of Polymer Effect Based on a Rigid Rod-Like Molecular Shape: Thermal Depolymerization of Poly-2,5-Distyrylpyrazine in Solution 47

K. HATADA, Y. OKAMOTO, K. OHTA, and H. YUKI: Proton Spin-Lattice Relaxation Times of Polymers of Various Tacticities in Solution 51

N. YAMAZAKI, T. TOMIOKA, and F. HIGASHI: Studies on Reactions of the *N*-Phosphonium Salts of Pyridines. XVIII. Polyureas from Carbon Dioxide and Diamines by Use of Phosphorus Chlorides 55

FROM OUR POLYMER CORRESPONDENT

G. N. VALKANAS and N. A. PEPPAS: Polymer Research in Greece 59

Announcements 61

ISSUE NO. 2, FEBRUARY

Y. YAMADA, K. KASHIMA, and M. OKAWARA: Synthesis of Tetrameric Iodonium Ion ... 65

J. MARQUEZ, J. GIULIANELLI, and D. H. EARGLE, JR: More on the Decomposition of Aromatic Polyradical Anions and their Monomers, Utilizing Electron Paramagnetic Resonance 73

T. SŁUPKOWSKI, K. KOZŁOWSKI, and B. JACHYM: ESR Study of Copolymerization of Unsaturated Polyester with Styrene 79

J. FURUKAWA and J. NISHIMURA: Cyclopolymerization of α,ω-Bis(4-vinylphenyl)Alkane: Polymer Containing [3.3]Paracyclophane Unit in the Main Chain 85

K. NAKAMURA and H. KAKUTANI: Migration and Drift Mobility of Dye Ions in Polymer Films 91

M. YOSHIHARA, N. MIYAMOTO, M. FUKUMURA, and T. MAESHIMA: Free-Radical Polymerization of Styrene in the Presence of Several Aryl Benzene Thiosulfonates 97

E. TSUCHIDA and E. HASEGAWA: Polyamine Oligomers Obtained from Mannich Polymerization 103

M. CEASARI, L. GARGANI, G. P. GIULIANI, G. PEREGO, and A. ZAZZETTA: Stress-Induced Crystallization of *cis*-1,4-Polybutadiene 107
